

“ I cannot emphasize enough how much
Two Hands Four Paws means to us. – Mark D.

Your dog will get so much out of every visit. It...just
might be the happiest place on earth. – Courtney F.

I highly recommend this business as an investment
in your pet's wellness program. – Karen E. ”

twohandsfourpaws.com

When it comes to physical rehabilitation and mobility, your pet is in the best hands at Two Hands Four Paws. We are known throughout the veterinary community for our skill, compassion, and the respect we have for our patients and clients.

EXPERIENCE

Our founder, Leslie Gallagher, and her staff have been providing physical rehabilitation for animals longer than anyone else in California. As the premier animal rehabilitation facility in Los Angeles, you can trust us to come up with an effective treatment plan for even the most difficult cases.

FEATURES

- Full-sized pool with easy access ramps
- Three underwater treadmills
- Bright and spacious facility
- Private courtyard
- Two land treadmills
- Open treatment area
- Five private treatment rooms
- Multilingual Staff

QUALIFICATIONS

All of our veterinarians and therapists undergo a lengthy and rigorous certification program to ensure that your pet is given a treatment plan of the highest caliber.

INTEGRATIVE MEDICINE

Eastern and Western techniques and medications are combined to create whole-body solutions for your pet. Utilizing the best of both worlds, there is no one better to care for your loved one than Two Hands Four Paws.

GETTING STARTED

Once you book your appointment at Two Hands Four Paws, we will request your pet's medical records. After reviewing them, the medical staff will perform a comprehensive physical exam and a gait analysis. In this Initial Consultation your pet will also receive many different therapeutic modalities. These may include massage therapy, acupuncture, underwater treadmill, strengthening exercises and swimming. Meanwhile, our doctors will be preparing a custom treatment program for your pet. We are happy to answer any questions you may have to ensure the comfort of you and your pet throughout the process.
