

Checking in With Leslie!

Dear friends and fellow animal lovers,

The holidays were so much fun but boy am I glad to not have tons and tons of high calorie delicious food and drink FORCING me to eat like that every day! Let the workouts begin! I hope this message finds you happy and healthy and full of great memories spent with family and friends. I want to express my heartfelt gratitude for the incredible support we received during the month of December. I also wanted to take a minute to go behind the scenes of the lead-up to my speaking at the Fetch360 presentation, a pivotal moment that was super fun, a bit scary and totally inspiring!

The process was intense, filled with late-night knowledge cramming and enlightening and sometimes laugh out loud exchanges with other experts in the field. It was an honor to present with world-renowned boarded rehab specialist and lecturer, Matt Brunke. The nerves before speaking to a room full of veterinary professionals were real, but it was a challenge I embraced wholeheartedly. Our lecture was “Laser Therapy in Animal Rehabilitation” and the reception and comments from the audience were greatly appreciated. It reminded me again of the incredible community this industry consists of and how much my colleagues truly care about their work and the animals. Everyone wants to **do** better and to **be** better and that energy is contagious!

We pride ourselves on being an independent business and we all cherish the close connections we have with each of our clients. Your ongoing support means the world to us, and we value the personal touch that defines our unique approach to animal rehabilitation. Your ongoing support means the world to us, and I can't wait to continue this incredible journey together in 2024.

Warm regards,

♥ Leslie Gallagher
